

"Uglies" is the story about three hundred years from now...

There are two cities in the story.

One is called "New Pretty Town".

People of "New Pretty Town" are controlled by the government.

But they don't have to work and they live comfortably.

The other city is called "Smoke."

People of "Smoke" are not controlled by the government.

But they have to work hard.

"New Pretty Town" and "Smoke" both don't like each other.

The main character called Tally has to spy "Smoke".

She liked to live in "New Pretty Town".

But after she went to "Smoke," she changes her mind.

The best character I like is Tally.

I understand her feeling.

The most impressive scene was that she suffered from not tell truth that she was a spy while she was in "Smoke."

The memorable part is that Tally knew the secret that people of "New Pretty Town" are controlled by the government.

People for "New Pretty Town" take an operation when they are sixteen.

The operation is not only change the people's future.

It also change their mind.

I like this book because this book is fantasy but I can imagine this story world easy and closely.

What I learned from the text is that what is real happiness.

If I choose the place where I liked to live, I choose "Smoke" because I want to be free.

I want to decide everything by myself.

I don't want to be controlled by everyone.

I want to be independent.

I would recommend the text to my friends in Japan because I want to think what is the happiness with my friends.
